

Compleat e-Procurement for Pegasus Opera

COMPLEAT SOFTWARE LAUNCHES E-PROCUREMENT SOLUTION FOR PEGASUS OPERA ACCOUNTING

-UK businesses operating Pegasus Opera II offered complete spend control-

16 November, 09: Compleat Software Limited <http://www.compleatsoftware.com> a provider of e-Procurement, expense and cashflow management solutions, today announces the availability of its e-Procurement, purchase automation and employee expenses management solution 'Compleat' for businesses operating Pegasus Opera II.

As a result of ongoing product development, the browser-based solution is proven to work with a range of back office accounting systems including Microsoft Dynamics, Coda Dream, Sage and now Pegasus Opera II, bringing an affordable spend control solution within the reach of businesses operating any one of these accounting systems.

Compleat Spend Control enables web-based purchase order generation providing cashflow management and forecasting based on both actual spend and committed spend, which enables full commitment accounting.

Compleat Spend Control also provides the ability for the finance department to take centralised control over corporate budgets, ensuring that every requisition / purchase order is always in budget and included within the cashflow forecast automatically, delivering automated purchase ordering, centralised budget control and corporate cashflow management based on fact. It facilitates a consolidation of suppliers to maximise buying power and negotiate the best possible credit terms, generating the appropriate Terms & Conditions with each order, whilst also capturing the supplier's performance to aid future negotiations.

The availability of an affordable e-Procurement, purchase automation and employee expenses management solution comes at a time when every business is looking to increase control over corporate spend, because saving money is a great deal easier than making it. Neil Robertson, CEO of Compleat Software, says, "With Compleat Spend Control's web-based purchase ordering companies can have complete visibility of the cost pipeline, the cashflow information and the ability to reduce spending in any area of the business at a moment's notice – plus full commitment accounting. The current economic climate is all about cashflow management, conserving cash and maximising its effectiveness."

Robertson continues, “£100k saved is usually equivalent to between £750k and £1m sales to achieve the same bottom line impact – but without the work or delay, it goes straight to the bottom line and into the bank account. This is an enormous advantage to businesses in the recession.”

John Moulson, Head of Finance at **the Rugby Football Union (RFU)** which is rolling out Compleat across its business after a highly successful pilot programme, says, “Compleat is one of the most competitive solutions on the market, with an affordable price entry point and a compelling return on investment. We looked at a number of solutions, but Compleat was the only one that did everything at a price that we could afford.” Moulson continues, “This is the biggest IT project in finance that the organisation has ever undertaken, and we needed a system that could meet that challenge. We are very happy with Compleat and the implementation is going well.”

Available in three editions – Standard, Professional and Enterprise – Compleat Spend Control integrates with a growing number of accounting software solutions, in real-time, with an Application Integration and Translation interface. Moulson adds, “Our users like the process and find it very easy to use.”

Robertson explains, “We implement the Enterprise product every time and restrict its functionality through licence keys, bringing spend control within the reach of every organisation now and addressing the future however fast a business might grow.”

Compleat is a mature and fully-proven cashflow management and commitment accounting solution with a customer base that spans multiple vertical markets such as Sport / Events, Hospitality, Financial Services, Design and Property Development, Education, Media, Retail and Not-for-Profit.
